

PAPAIOS Lecture Announcement
The 3rd Input-Output Analysis Lecture
Nagoya University, JAPAN, 29th March 2018

- Title: Input-Output Analysis of Waste Management and Material Cycles
- Lecturer: Prof. Yasushi KONDO,
Professor of Econometrics at Faculty of Political Science and Economics, Waseda University
- Summary: Resource productivity and circular economy have recently received much attention, and thus there is growing demand for analysis of the environment and economy in a unified framework. This lecture introduces the basics of waste input-output (WIO) and its applications to footprint analysis and material flow analysis.
- Language English
- Time 10:00-12:00, 29th March 2018
- Place: The 1st lecture room of Graduate School on Higashiyama Campus at Nagoya University; Refer to C4② in the pink area of the campus map accessed via the following link:
<http://en.nagoya-u.ac.jp/map/index.html>
- Transportation: Subway Meijo Line, Nagoya Daigaku Station, Exit No.1
<http://www.nagoya-u.ac.jp/access/index.html>

This lecture is free of charge and no pre-registration is required. We will welcome anyone who wishes to join this lecture, students, non-members and members of PAPAIOS. We will welcome not only input-output analysis experts but also those who are interested in IO analysis and/or environmental issues.

If you also wish to attend the ICES 2018, PAPAIOS international conference, which is held on 28th and 29th March 2018, registration is required, on-site registration is possible, and also the related registration fee is required.
